

JOHN IREWOLE

Architectural Technologist | Revit & BIM

Johnirewole@gmail.com
linkedin.com/in/john-irewole

Professional Summary

Architectural Technologist with approximately five years at BBB Architects on sports and entertainment projects. Experienced in Revit modelling, construction documentation, consultant coordination and parametric families, including site modelling and building-envelope work.

Technical Skills

Software: Revit, AutoCAD, ACC / BIM 360, Bluebeam, Enscape, Environment for Revit

Workflows: Construction drawings, consultant-model coordination, parametric families, site and landscape modelling, plans and sections, finishes, schedules and specifications

Professional Experience

Architectural Technologist

August 2021 – March 2026

BBB Architects | Toronto, Ontario

- Produced Revit models and construction documentation for arena and Event Centre projects, supporting work from early design through construction-stage coordination.
- **Scotiabank Arena Phase 1 [Renovation]:** Developed pre-design and schematic design options; coordinated reflected-ceiling plans with lighting, MEP and ICT information across the lounge and suites.
- Linked consultant Revit models and overlaid AutoCAD plans; raised coordination clashes in biweekly consultant meetings.
- Created parametric Revit families; modelled central-island variants and developed plans and sections to communicate geometry and critical dimensions.
- Modelled and detailed the party-room divider bulkhead in Revit, coordinating accessible clearances and wheelchair positions.
- **Lansdowne 2.0 Event Centre [New build]:** Recreated the landscape and wider site in Revit using massing and site tools, including Environment for Revit; updated the model using revised civil and survey grading information.
- Contributed to Event Centre roof, curtain wall and building-envelope work. Across project work, prepared finishes, schedules and specifications, and produced 3D visualizations to communicate design intent.

Education

Architectural Technology

May 2019

Humber College | Toronto, Ontario

Additional Experience

Shipping Coordinator | Salit Steel

June 2021 – August 2021

Coordinated shipping schedules, customs paperwork and invoicing with vendors and administrators.

Volunteer live production

Since 2019

Livestreaming, audio visual, LED walls, video post-production and event scheduling.
